

Literacy

Every child has the right to learn (Article 28)

This term Year 2 will be reporting on and studying our local environment and then comparing it to a foreign destination, including the countries of our classes' pupils. We will also be creating leaflets and posters to inform and persuade people to go to a holiday destination, before finishing with a review of our own little holiday. Children will also be writing postcards and examining menus ahead of our exciting trip to a local French café!
Year 2 will continue to develop their storytelling skills using the plan-draft-edit-publish format. They will draw stories from other cultures to inspire their writing.

IPC Summer – Hooray.. Let's go on holiday!

We hope to link this topic with a little excursion of our

own so keep an eye out for a letter soon.

Geography learning objectives:

know about some similarities and differences between different

holiday locations and their own country.

know how land and buildings are used by people for holiday activities.

Know about the weather in some of their holiday destinations.

begin to know how people can harm or improve the environment.

Art learning objectives:

know about some of the ways holidays are represented in art.

be able to use and evaluate work on a variety of materials and processes.

To be able to use and comment on works of art from a wide variety of

places and situations.

Sport

PE will continue to take place on Thursday mornings.

Children must come to school dressed in their full PE kit and bring their full uniform (including appropriate footwear) to change into afterwards. The Owls will also have weekly Athletics sessions to build team game skills ahead of Sports Day. These will take place on Monday afternoons and require the full PE kit to be brought to school.

SATs

KS1 SATs will take place throughout the month of May. The majority of the children will sit two Maths papers (arithmetic and reasoning), and reading comprehension papers. These will take place internally.

The aim of the SATs is to provide us with an indication of your child's progress in order to support the teacher's end of year assessment. We will ensure that the delivery of SATs does not adversely impact your child's wellbeing as this is always our first priority. Please do not hesitate to ask us for further support/advice regarding SATs.

Summer term 2018 Curriculum map OWLS

TOPIC: Hooray.. let's go on holiday!

Computing

Children will continue to build coding skills and enhance their awareness of e-safety throughout the Summer term.

SEAL

Every child has the right to feel safe in school (Article 36)

Our topic this half term is 'Relationships and Changes', where we will be thinking about getting ready for the move into Key stage 2.

Mathematics Mastery

Every child has the right to learn (Article 28)

Numbers within 1000

Exploring calculation strategies

Multiplication and division (3x and 4x)

Children will draw on their knowledge of place value to identify hundreds, tens and ones in 3-digit numbers. They will also further explore calculation strategies using the four operations (addition, subtraction, multiplication and division.) The Year 2s will have the opportunity to work on pre-SATs example questions involving applying these strategies and problem-solving.

Supporting Your Child at Home

We are rapidly approaching the end of the school year and, in the coming weeks, the Year 2 children will take the statutory tests for the end of Key Stage 1 to determine their level before going into Key Stage 2. Your child's teacher will be assessing your child in Reading, Writing and Maths. You can support at home by reading every day as this is so important in developing the core skills of reading, speaking, listening and writing. It is essential that you also practise basic number work with your child, including learning all their number bonds and their timetables (2, 5 & 10). **Please ask us if you would like to know more about your children's needs and how you can support them.**

Reminders and Enrichment Activities

Every child has the right to play (Article 31)

The children enjoy weekly French lessons with a native speaker.

Please continue to read with your child on a daily basis and sign their Reading Log.

Homework (including Conquer Maths) will continue to be sent out on a Thursday and be due back the following Tuesday. Stay tuned for information on upcoming trips!
